With the MP1 Max, manufacturer Dangbei offers a home theater projector with UHD (4K2K) 3840 x 2160 resolution. Since Dangbei indicates the brightness of the projector in lumens, we have calculated an approx. Ansi-Lumen value in this case. The projector can illuminate up to 513 cm of image width well due to the 3472 Ansi-Lumen. The projector creates rooms with low light with a smaller image width, max. 342 cm would be recommended. Google TV turns the projector into a smart entertainment center with countless functions. Since the projector recognizes Chromecast, screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Furthermore, it is Full HD 1080P and 4K compatible.
