

DBPOWER RD828

DBPOWER RD828

The DBPOWER RD828 LED LCD projector has 900 ANSI lumens, a contrast ratio of 15,000:1 and an HDTV 1920 x 1080 resolution. The service life is 30,000 hours thanks to the LEDs, which would be the equivalent of over 20.5 years at 4 hours a day. The projector also offers an integrated media player that can be used to play files directly. The horizontal and vertical keystone correction provides leeway when setting up. The projector will be able to illuminate a picture width of 305 cm well. If room light is available, however, the image width should not exceed 203 cm. The projector has Airplay, Miracast Screen Mirroring support, which allows high-resolution video and surround sound from Android, Windows or iOS smartphones, tablets and PCs to be played directly over Wi-Fi. Another extra feature is the Bluetooth function, which allows the projector to be connected to external wireless speakers. Playing 1080P and 4K (compressed) is also no problem for the projector.
