

DEBUY 800 ANSI

DEBUY 800 ANSI

With the 800 ANSI, manufacturer DEBUY offers a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1500:1. Thanks to its LEDs, the projector has a specified lamp life of 30,000 hours ? which equates to over 20.5 years if used for four hours a day. The horizontal and vertical keystone correction allows the projector to be positioned with great flexibility. With a brightness of 800 ANSI lumens, an image width of 305 cm is possible. In room lighting conditions, the image should be no more than 203 cm wide. Thanks to Google TV, the projector can be conveniently controlled via voice commands. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. In addition, the projector can be flexibly paired with other speakers thanks to its Bluetooth function. Playing 1080p and 4K (compressed) content is also no problem for the projector.

Brief Introduction

Beta 2.5

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display
