

Digital Projection dVision 30 1080p LED / +IR

The stationary dVision 30 1080p LED / +IR LED BrilliantColor DLP has 700 Ansi lumens, a contrast of 7500:1 and an HDTV 1920 x 1080 resolution. The manufacturer Digital Projection states a service life of 100,000 hours, which is equivalent to over 68.5 years at 4 hours per day. With the lens shift function, the projector can be positioned very freely. The projector can illuminate a picture width of up to 269 cm thanks to its 700 Ansi lumens. In room lighting, however, the picture width should ideally be less than 179 cm. 1080P playback is also no problem for the projector. The operating noise of just 30 decibels makes the projection quiet. The model built in 2010 is no longer offered by Digital Projection.

 1 x DC DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
