

# Digital Projection HIGHlite Cine 1080p 660 3D

The Digital Projection HIGHlite Cine 1080p 660 3D large-format 3D DLP projector has 8000 Ansi lumens, a contrast of 2000:1 and an HDTV 1920 x 1080 resolution. Including a lens shift function, which provides freedom during installation. A picture width of up to 909 cm is possible, if the picture width is smaller (we recommend max. 606 cm), rooms with residual light are also no problem. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. Playing 1080P and 3D is also no problem for the projector. The model built in 2013 is no longer offered by Digital Projection, but is still a very popular projector.
