The TITAN 800 SX+ 3D DLP projector from Digital Projection has 12000 Ansi lumens, a contrast of 2000:1 and an SXGA+ 1400 x 1050 resolution. With the lens shift function, the projector can be positioned very freely. 12000 Ansi lumens ensure that a picture width of 954 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 636 cm. Playing 1080P and 3D is also no problem for the projector. The model built in 2012 is no longer offered by Digital Projection.
