

Digital Projection Titan 930 1080p 3D (Preliminary)

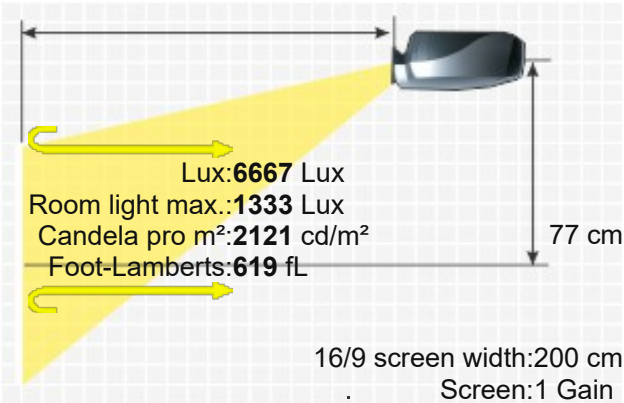

Brief Introduction

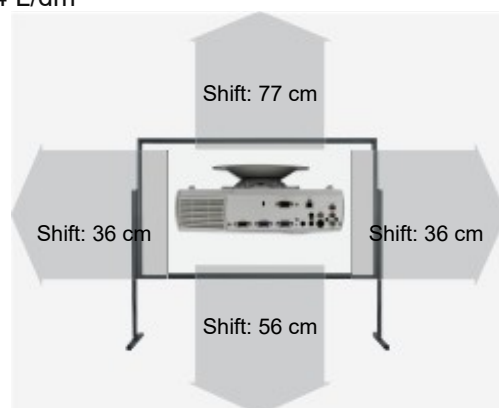

The Digital Projection Titan 930 1080p 3D (Preliminary) large format 3D DLP projector has 15000 Ansi lumens, a contrast of 2000:1 and an HDTV 1920 x 1080 resolution. The projector also offers a lens shift function that makes image adjustment childs play. The projector will be able to illuminate a picture width of 1244 cm well. The projector can create rooms with residual light with a smaller image width, we would recommend a maximum of 829 cm here. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Even 1080P video signals and 3D are no problem for the projector. It was launched in 2013 and is no longer offered by the manufacturer Digital Projection, but is still a popular projector in our database.

Display Type

Ansi-Lumen	15000	6667 Lux (bei 200 cm Screen)
Contrast	2000:1 full on/off	2000:1 full on/off
Black Level	7,5000 min. Lumen	3,337 min. Lumen
Lens shift	Vert.: +68,5% -50% Hori.: +/-18,8%	
Resolution	HDTV 1920 x 1080 2.073.600 Pixel
