The Digital Projection TITAN HD 500 DLP projector has 4500 Ansi lumens, a contrast of 1800:1 and an HDTV 1280 x 720 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate images up to 682 cm wide thanks to its 4500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 455 cm. It is also Full HD 1080P compatible. The projector was launched in 2006 and is no longer sold by the manufacturer. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
