

Digital Projection TITAN sx+ 500

Brief Introduction

Beta 2.5

The Digital Projection model TITAN sx+ 500 is a DLP projector with SXGA+ 1400 x 1050 resolution and a contrast of 2000:1 / alt 1600:1. With the lens shift function, the projector can be positioned very freely. 6000 Ansi lumens ensure that a picture width of 675 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 450 cm. The model is also Full HD 1080P compatible. On the market since 2006, the model is no longer offered by the manufacturer Digital Projection. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither originals nor replicas.

Display Type

3 x DC 0,95" DLP Chip
SXGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen

6000 / alt 5500
