

Digital Projection TITAN sx+ Dual 3D

Brief Introduction

Beta 2.5

With the TITAN sx+ Dual 3D, manufacturer Digital Projection offers a DLP projector with SXGA+ 1400 x 1050 resolution and a contrast of 2000:1. The built-in lens shift function provides freedom when setting up. 9000 Ansi lumens ensure that a picture width of 826 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 551 cm. The model is also Full HD 1080P and 3D compatible. It was launched in 2008 and is no longer offered by the manufacturer Digital Projection, but is still very popular in our projector database.
