

Digital Projection TITAN XG 500

Brief Introduction

Beta 2.5

The Digital Projection TITAN XG 500 is a DLP projector with XGA 1024 x 768 resolution and a contrast ratio of 1200:1. The lens shift function allows the projector to be positioned very freely. A picture width of up to 584 cm is possible; if the picture width is smaller (we recommend max. 389 cm), even rooms with residual light are no problem. Furthermore, it is Full HD 1080P compatible. It was launched in 2006 and is no longer offered by the manufacturer Digital Projection. It should also be noted that unfortunately there are no longer any replacement lamps available for the projector, neither original nor replica.

3 x DC 0,7" DLP Chip
XGA 4/3 Ti Digital Light Processing Chip
