The DreamVision EOS Light+ high-end home theater DILA projector has 2300 ANSI lumens, a contrast ratio of 80,000:1 and a UHD (4K2K) 3840 x 2160 resolution. The integrated lens shift gives you freedom when setting up the projector. The projector will be able to illuminate a 487 cm image width well. However, if room lighting is available, the image width should ideally not exceed 325 cm. Playing 1080P and 4K is also not a problem for the projector.
