

DreamVision Eos Signature

The high-end home cinema DreamVision Eos Signature 3D DILA projector has 2200 Ansi lumens, a contrast of 100000:1 and a UHD (4K+2K) 4096 x 2160 resolution. The service life of the lamp is up to 4500 hours, which is equivalent to over 6.2 years at 2 hours per day. With the lens shift function, the projector can be positioned very freely. The projector can illuminate a picture width of up to 477 cm with its 2200 Ansi lumens. In room lighting, however, the picture width should ideally be less than 318 cm. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, meaning that all currently available Blu-ray formats can be recognized by the projector. It was launched in 2018 and is no longer offered by the manufacturer DreamVision.

3 x 0,69" D-ILA Chip

UHD 19/10 Direct-Drive Image Light Amplification (D-ILA)
