

DreamVision SIGLOS 3

The DreamVision SIGLOS 3 model is a DILA projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 150000:1. The manufacturer DreamVision specifies a lamp life of 4000 hours, which is over 5.5 years with a daily viewing time of 2 hours. The projector also offers a lens shift function that makes image adjustment childs play. The projector can illuminate an image width of up to 366 cm thanks to its 1300 Ansi lumens. In room lighting, however, the picture width should ideally be less than 244 cm. Video signals 1080P and 4K as well as 3D are also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector. The operating noise of just 19 decibels makes the projection quiet. This model is no longer offered by DreamVision.
