

DreamVision UST25 4500HDI

DREAMVISION UST25 4500HDI

The DreamVision UST25 4500HDI Whiteboard 3D Laser DLP projector has 4000 Ansi-Lumen, a contrast of 20000:1 and a HDTV 1920 x 1080 resolution. Due to the laser, the projector is specified with 30000 hours of light life, which converts to over 20.5 years at 4 hours per day. Includes an integrated media player that can be used to play files directly. Thanks to the brightness of 4000 Ansi lumens, a picture width of 643 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend a maximum of 429 cm). The projector offers an interactive whiteboard function for interactive training courses and presentations. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The projector can also display 1080P and 3D without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2017, the model is no longer offered by the manufacturer DreamVision, but is still one of the very popular projectors.
