The EffiGlow Mini Projector 1080P Game Portable LED LCD Projector has 210 ANSI lumens and an HDTV 1920 x 1080 resolution. It is an LED projector with a light life of 30,000 hours, which is over 20.5 years if used for four hours a day. The brightness of 210 ANSI lumens allows for an image width of 147 cm. In room lighting, the image should be a maximum of 98 cm wide. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. It is also compatible with Full HD 1080P and 4K (compressed).
