

Eiki EK-900LU

EIKI EK-900LU

A brief introduction to the EK-900LU: The Eiki stationary laser LCD projector offers 9000 Ansi lumens, a contrast of 100000:1 and a WUXGA 1920 x 1200 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The built-in lens shift and keystone correction function provides freedom when adjusting the projection. An image width of up to 964 cm is possible, if the image width is smaller (we recommend max. 643 cm), rooms with residual light are also no problem. Furthermore, the projector can play 1080P and 4K (compressed) without any problems. Even projection onto the ceiling is possible thanks to the 360° projection.
