The stationary LC XGC500/L LCD has 5000 Ansi lumens, a contrast of 1100:1 and an XGA 1024 x 768 resolution. The integrated lens shift gives freedom when positioning the projector. An image width of up to 616 cm is possible, if the image width is smaller (we recommend max. 411 cm), rooms with residual light are also no problem. This model is no longer offered by Eiki, but is still very popular in our projector database.
