Manufacturer ELEPHAS offers the W1K, a standard portable LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. The manufacturer ELEPHAS states a lifespan of 30,000 hours, which is over 20.5 years of daily use for four hours. A built-in horizontal and vertical keystone correction allows for freedom when setting up the projector. An image width of up to 321 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 214 cm. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible.
