

Epson EB-107

The EB-107 LCD has 3500 Ansi lumens, a contrast of 15000:1 and an XGA 1024 x 768 resolution. The lamp life is up to 12000 hours, which is over 16.4 years if enjoyed for two hours a day. The horizontal and vertical keystone correction provides leeway when setting up. Thanks to the brightness of 3500 Ansi lumens, a picture width of 515 cm is possible. The projector will also cope with slightly brighter rooms with a narrower picture width (we recommend max. 343 cm). With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The model is also Full HD 1080P compatible. It is no longer offered by the manufacturer Epson.
