The Complete, truly mobile projector

The Complete, truly mobile projector

Are you having some concerns with regard to projectors?

Issues like size, weight, ease of use, etc...

The Epson EB-1750 series aims to resolve these issues with its rich and useful functions that are easy to use and a clean yet simple look to suit any environment. This compilation of features allow the audience to concentrate on the presentation materials.

Multimedia Projector

EB-1775W / EB-1770W / EB-1760W / EB-1750

The Complete, Truly mobile projector

Portability

Very slim and lightweight for easy carrying

Put on a great show wherever you present.

Having only 44mm* height, weight just 1.7kg. This projector is easy to take with you anywhere and always gets your message across with sharp, colourful images that are clear and bright even in daylight rooms. *Excluding feet

Clearly visible images even under fluorescent lights

3000 lm High Brightness

With a high 3000 lm brightness setting you don't have to draw the curtains for rooms of up to 50 people. It's possible to use it in an office or classroom without dimming the lights. Its 1.7kg weight makes it easy to take it with you.

Put away smoothly

Instant Off and Direct Power Off

With desktop use it is fine to turn off the switch immediately after use. There is no need to keep your audience waiting for cool down, allowing you to prepare for your next class or meeting for more efficient use of time.

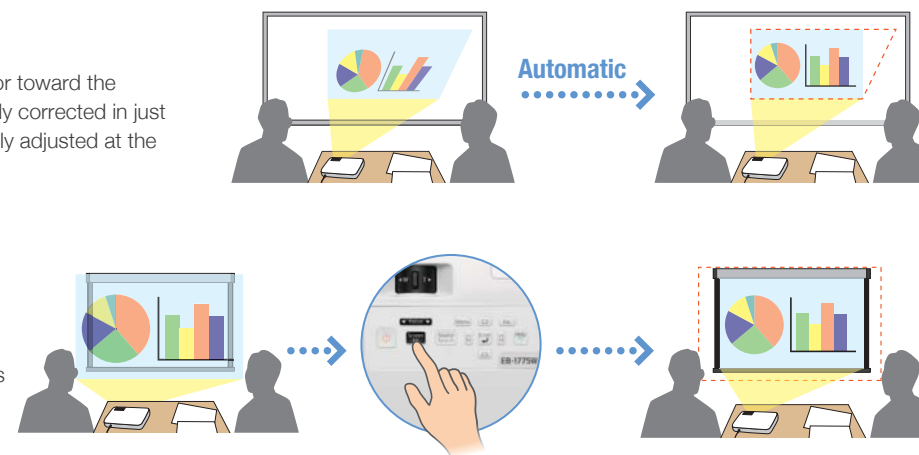

Convenient Functions Epson provides even with Mobile use Projector

Usability

Easy to adjust projected images

Auto H/V Keystone Correction

Simply turn on the power and direct the projector toward the screen or wall and the image will be automatically corrected in just a couple seconds. The focus is also automatically adjusted at the same time for a prompt completion of set-up. (Horizontal auto keystone correction: only for EB-1775W)

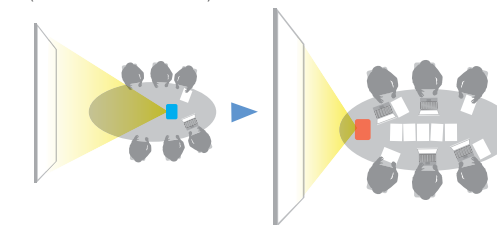

Screen Fit

In cases where the image extends beyond the frame of the screen or whiteboard you just have to push the Screen Fit button and the image frame will automatically match up with the edges of the screen. Focus is, of course, adjusted automatically as well. (For EB-1775W)

Short throw distance

Makes your workspace larger.

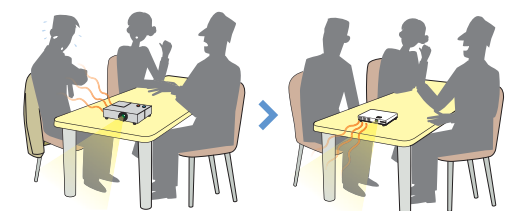

Project a 60 inch screen from just 1.35m*. This convenient feature is great for small meeting room and allows for efficient use of desk space. (* XGA mode is 1.45m)

Comfortable during operation

Front Exhaust

The projector was designed to prevent anyone from being exposed to the hot exhaust even when on a narrow table.

Useful features allows

Expandability

No special settings required for projection with a PC

3 in 1 USB Display

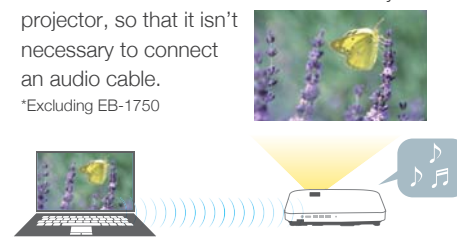

A troublesome set-up is no longer necessary for image projection. Images can be projected by simply connecting the PC and projector via the included USB cable. Sound data can also be sent*. A built-in speaker allows you to enjoy powerful sound without having to prepare a separate speaker.

Safety with wireless

Wireless Connection

Free from complicated and dangerous cables! A wireless LAN connection is possible via an access point*. You can make a direct connection between projector and a PC. Sound can also be transmitted wirelessly with projector, so that it isn't necessary to connect an audio cable. *Excluding EB-1750

Farewell to heavy PCs

PC Free

Using the included "Slide Converter" software, presentations are possible without a PC using a USB memory device. You can just bring the data along without any distractions.

Easy to share pictures

Slide Show

Simply save pictures as JPEG data on a USB memory device, insert into the projector and your pictures are projected automatically. The viewer can see beautiful pictures projected as they are for a more dramatic impression.

Choose from a variety of sources

Wide-ranging Connectivity

Wider range of connectivity allows for more effective presentations. Depending on the situation, you can choose from a variety of connection methods including USB, HDMI and wireless connection*. It is also possible to connect Epson's ELPDC06 document camera with a USB cable. *Excluding EB-1750
