

Epson EB 536Wi

A brief introduction to the Epson EB 536Wi. The LCD projector has a WXGA 1280 x 800 resolution and a contrast of 16000:1. The lamp in the projector is specified with a lamp life of 5000 hours, which is over 6.8 years if enjoyed for two hours a day. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. As the EB 536Wi is equipped with a microphone jack plug and 16W speakers, no additional audio system is required for presentations or training courses. 3400 Ansi lumens ensure that a picture width of 592 cm is also possible. However, if room light is available, the picture should be a maximum of 395 cm wide. The projector also offers a whiteboard function that makes training and presentation rooms interactive. Furthermore, the projector can play 1080P without any problems. The model built in 2014 is no longer offered by Epson, but is still very popular in our projector database.

Brief Introduction

Beta 2.5

Display Type

3 x 0,59" LCD TFT Panel
 WXGA 16/10 Liquid Crystal Display
