

Epson EB-G7900U/NL

EPSON EB-G7900U/NL

Brief Introduction

Beta 2.5

The EB-G7900U/NL LCD has 7000 Ansi-Lumen, a contrast of 50000:1 and a WUXGA 1920 x 1200 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate images up to 850 cm wide thanks to its 7000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Furthermore, the projector can play 1080P and 4K (compressed) without any problems, and even has the option of projecting HD 1080P and 4K (compressed) Blu-rays onto the ceiling using 360° 1/2 projection. The model was built by Epson in 2016 and is no longer current, but is still very popular in our projector database.
