

Epson Lifestudio Pop EF-62B/W/G

EPSON LIFESTUDIO POP EF-62B/W/G

The Standard Portable Lifestudio Pop EF-62B/W/G LED LCD Projector from Epson has 875 ANSI lumens, a contrast ratio of 5000000:1, and HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a light life of 20,000 hours, which equates to over 13.7 years of enjoyment at four hours per day. As the projector has horizontal and vertical keystone correction, it can be set up with plenty of space around it. Since Epson specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The projector will be able to illuminate a 301 cm image width well. However, if there is room lighting, the image width should not exceed 201 cm. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector has Chromecast and screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Even 1080P playback is no problem for the projector. At just 24 decibels, the device is one of the quieter projectors available.

3 x 0,62" LCD Panel
