

Epson USA Megaplex MG 50

EPSON USA MEGAPLEX MG 50

The Megaplex MG 50 LCD has 2200 Ansi lumens, a contrast of 5000:1 and a WSVGA 960 x 540 resolution. The lamp in the projector is specified with a lamp life of 4000 hours, which converts to over 5.5 years at 2 hours per day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As the Megaplex MG 50 is equipped with a microphone jack plug and 10W speakers, no additional audio system is required for presentations or training courses. The projector can illuminate an image width of up to 477 cm with its 2200 Ansi lumens. In room lighting, however, the image width should ideally be less than 318 cm. Even 1080P video signals are no problem for the projector. The model built in 2011 is no longer offered by Epson USA.
