

Epson USA Powerlite W39

EPSON USA POWERLITE W39

A brief introduction to the Powerlite W39: The Epson USA standard portable LCD projector offers 3500 Ansi lumens, a contrast of 15000:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies a lamp life of 12000 hours, which converts to over 16.4 years at 2 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The horizontal and vertical keystone correction provides leeway when setting up. 3500 Ansi lumens ensure that a picture width of 601 cm is also possible. The projector manages rooms with residual light with a smaller image width, we recommend a maximum of 401 cm. Even 1080P video signals are no problem for the projector. The model was built by Epson USA in 2017 and is no longer current.
