

ETOE D2 EVO

ETOE D2 EVO

Brief Introduction

Beta 2.5

The standard portable D2 EVO LED LCD projector from ETOE has 400 Ansi lumens, a contrast of 15000:1 and an HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 160000 hours of light life, which is over 109.6 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. 400 Ansi lumens ensure that a picture width of 203 cm is also possible. However, if room light is available, the picture should be a maximum of 135 cm wide. The integrated Google Assistant extends the functionality of the projector with voice assistant features such as navigation, smart home integration and music streaming. The model recognizes Chromecast, screen mirroring signals, making it possible to play videos with high resolution and surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Even 1080P video signals are no problem for the projector.

- 1 x LCD TFT Panel
- HDTV 16/9 Liquid Crystal Display
