

# Everest CR355U

EVEREST CR355U

A brief introduction to the Everest CR355U. The LCD projector has a WUXGA 1920 x 1200 resolution and a contrast of 10000:1. Manufacturer Everest specifies the lamp life as 10000 hours, which is over 13.7 years if enjoyed for two hours a day. The horizontal and vertical keystone correction provides leeway when setting up. With a projection ratio of just 0.46:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 92 cm away from the screen. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. Even 1080P playback is no problem for the projector. On the market since 2021, the model is no longer offered by the manufacturer Everest.
