Everest CR355Wi

Brief Introduction
Beta 2.5

A brief introduction to the Everest CR355Wi. The LCD projector has a WXGA 1280 x 800 resolution and a contrast of 10000:1. The projectors lamp is specified with a lamp life of 10000 hours, which converts to over 13.7 years at 2 hours per day. The horizontal and vertical keystone correction allows the projector to be positioned very freely. As it is a short-throw projector, the projector can be positioned very close to the wall. For a 2 m wide image, the projector only needs to be 92 cm away from the screen. The HDMI MHL (Mobile High-Definition Link) port allows 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. Playing 1080P is also no problem for the projector. The model built in 2021 is no longer offered by Everest.

Display Type	3 x 0,59" LCD TFT Panel WXGA 16/10 Liquid Crystal Display
