

Everest YO606U

EVEREST YO606U

The Standard Portable YO606U 3D Laser LCD Projector from Everest has 6,000 ANSI lumens, a contrast ratio of 5,000,000:1, and a WUXGA 1920 x 1200 resolution. Thanks to its laser technology, the projector has a light source lifespan of up to 20,000 hours, which would amount to over 13.7 years based on 4 hours of daily use. The lens shift function allows for great flexibility in setting up the projector. An image width of up to 787 cm is possible; if the image width is smaller (we recommend a maximum of 525 cm), even rooms with ambient light are no problem. Furthermore, the projector can play 1080p and 3D content without any issues, and even has the capability to project HD 1080p Blu-rays onto the ceiling thanks to its 360° projection.
