Operating Noise

The stationary compact 560 LCD has 350 Ansi lumens, a contrast of 100:1 and an SVGA 800 x 600 resolution. The projector can illuminate a picture width of up to 163 cm with its 350 Ansi lumens. In room light, however, the image width should ideally be less than 109 cm. This model is no longer offered by Geha. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
