

HAPPRUN H1

HAPPRUN H1

Top

With the H1, manufacturer HAPPRUN offers an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. The manufacturer specifies an LED service life of 100,000 hours, which translates to over 68.5 years at 4 hours per day. The integrated media player can play files directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. 380 Ansi lumens ensure that a picture width of 198 cm is also possible. However, if room light is available, the picture should be max. 132 cm wide. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The model optionally recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P and 4K (compressed) compatible.
