

HAPPRUN KC7 Pro

HAPPRUN KC7 PRO

Brief introduction to the HAPPRUN KC7 Pro. The LCD LED projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 20000:1. It is an LED projector with a light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. 2000 ANSI lumens ensure that an image width of 454 cm is also possible. However, if there is room lighting, the image should be no more than 303 cm wide. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector has Chromecast, Airplay, and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Even 1080P and 4K (compressed) video signals are no problem for the projector.
