

HAPPRUN YG491

HAPPRUN YG491

Brief Introduction Beta 2.5

A brief introduction to the YG491: The HAPPRUN standard portable LED LCD projector offers 800 Ansi lumens and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. Due to the brightness of 800 Ansi lumens, a picture width of 246 cm is possible. In room light, the picture should be max. 164 cm wide. As the projector recognizes Chromecast, screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Video signals 1080P and 4K (compressed) are also no problem for the projector.
