## Operating Noise

The micro-portable MP2000 Pro LED DLP projector from Hewlett Packard has 833 Ansi lumens and an HDTV 1920 x 1080 resolution. The manufacturer Hewlett Packard specifies a service life of 25,000 hours, which is over 17.1 years with a daily viewing time of 4 hours. As Hewlett Packard specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector will be able to illuminate a picture width of 293 cm well. However, if there is room light, the picture width should ideally not exceed 195 cm. It is also Full HD 1080P compatible.
