HISENSE C2 ULTRA

Top

The Hisense C2 Ultra Laser DLP projector has 3000 ANSI lumens, a contrast ratio of 1700:1 and a UHD (4K2K) 3840 x 2160 resolution. Thanks to the laser, the projector is specified with a 25,000-hour light lifespan, which would be 17.1 years with 4 hours of viewing per day. The projector also offers an integrated media player that can be used to play files directly. The brightness of 3000 ANSI lumens makes it possible to achieve a screen width of 556 cm. In room light, the image should be a maximum of 371 cm wide. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Playing 1080P and 4K videos is also no problem for the projector.
