

Hisense PT1

Hisense

OFFICIAL PARTNER

Manufacturer Hisense offers the PT1, a DLP laser projector with HDTV 1920 x 1080 resolution and a contrast ratio of 3000:1. Manufacturer Hisense specifies the service life as 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. The ambient light sensor allows the projector to automatically optimize the projected image. The integrated media player can play files directly. Since the projector recognizes DLNA, Airplay, and Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, Bluetooth connectivity is a useful addition to the projector, especially for wireless audio transmission. The projector can also handle 1080P and 4K (compressed) video signals as well as 3D, meaning that it can recognize all currently available Blu-ray formats.

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
