

Hisense Vidda C5 Master

HISENSE VIDDAC5 MASTER

The Vidda C5 Master Laser DLP projector from Hisense has 5,220 ANSI lumens, a contrast ratio of 8,000: 1 FOFO, and a UHD (4K2K) resolution of 3840 x 2160. Thanks to the laser, the projector has a lifespan of 20,000 hours, which would equate to over 13.7 years based on 4 hours of daily use. The ambient light sensor allows the projector to automatically optimize the projected image. The built-in lens shift and keystone correction functions provide flexibility in adjusting the projection. Since Hisense specifies the projector's brightness in lumens, we have calculated an approximate ANSI lumen value for this model. An image width of up to 675 cm is possible; if the image width is smaller (we recommend a maximum of 450 cm), even rooms with ambient light are no problem. The model supports AirPlay and Miracast screen mirroring, making it possible to play high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, thanks to its Bluetooth functionality, the projector can be flexibly paired with other speakers. The projector also handles 1080p and 4K video signals with ease.
