

Hitachi CP X10WN

HITACHI CP X10WN

A brief introduction to the CP X10WN: The Hitachi LCD projector offers 2700 Ansi lumens, a contrast of 2000:1 and an XGA 1024 x 768 resolution. Includes an integrated media player for direct playback of files. The projector can illuminate an image width of up to 453 cm thanks to its 2700 Ansi lumens. In room lighting, however, the image width should ideally be less than 302 cm. Even 1080P video signals are no problem for the projector. On the market since 2011, the model is no longer offered by the manufacturer Hitachi.
