

HOPVISION JQ818A

HOPVISION JQ818A

The standard portable HOPVISION JQ818A LED LCD projector has 600 Ansi lumens, a contrast of 12000:1 and an HDTV 1920 x 1080 resolution. The service life of the LEDs is 150,000 hours, which is over 102.7 years if enjoyed for four hours a day. Horizontal and vertical keystone correction makes setting up the picture childs play. As HOPVISION specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. Due to the brightness of 600 Ansi lumens, a picture width of 249 cm is possible. In room light, the picture should be max. 166 cm wide. The projector has optional Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. The projector can also play 1080P and 4K (compressed) without any problems.
