

INF D5000

INF D5000

Brief Introduction

Beta 2.5

The INF D5000 micro-portable LED LCD projector has 200 ANSI lumen and a resolution of 320 x 240. It is an LED projector with a lamp life of 30,000 hours, which would equate to over 20.5 years if used for 4 hours a day. The brightness of 200 ANSI lumens allows for an image width of 144 cm. In room lighting conditions, the image should be no more than 96 cm wide. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Furthermore, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The model is also compatible with Full HD 1080p.
