The InFocus Genesis IN114AA model is a DLP projector with XGA 1024 x 768 resolution and a contrast of 30000:1. The lamp in the projector is specified with a lamp life of 10000 hours, which converts to over 13.7 years at 2 hours per day. 3800 Ansi lumens ensure that a picture width of 537 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 358 cm. Furthermore, the projector can play 1080P without any problems. At just 30 decibels, the device is one of the quieter projectors.
