

InFocus IN0028SL

INFOCUS IN0028SL

A brief introduction to the IN0028SL: The InFocus standard portable 3D DLP projector offers 4000 Ansi lumens, a contrast of 30000:1 and a WXGA 1280 x 800 resolution. The lamp life is up to 15000 hours, which is over 20.5 years with a daily viewing time of 2 hours. The projector can illuminate a screen width of up to 643 cm thanks to its 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Playing 1080P is also no problem for the projector. With only 27 decibels of operating noise, the model is already very quiet compared to others.
