InFocus IN1026

INFOCUS IN1026

Brief Introduction Beta 2.5	A brief introduction to the InFocus IN1026. The standard portable LCD projector has a WXGA 1280 x 800 resolution and a contrast of 50000:1. The manufacturer states a lamp life of 20000 hours, which is over 27.4 years with a daily viewing time of 2 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 658 cm is possible as the projector has 4200 Ansi lumens. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 439 cm. Furthermore, the projector can play 1080P and 4K (compressed) as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector.
