The IN2112 3D BrilliantColor DLP projector from InFocus has 3000 Ansi lumens, a contrast of 2100:1 and an SVGA 800 x 600 resolution. 3000 Ansi lumens ensure that a picture width of 477 cm is also possible. However, if room light is available, the picture should be max. 318 cm wide. Even 1080P video signals are no problem for the projector. The projector is very quiet compared to others with an operating noise of 30 decibels. It was launched in 2009 and is no longer offered by the manufacturer InFocus.
