The InFocus IN228 3D DLP projector has 3500 Ansi lumens, a contrast of 17000:1 and a WXGA 1280 x 800 resolution. The lamp in the projector is specified with a lamp life of 5000 hours, which is over 6.8 years if enjoyed for two hours every day. Thanks to the brightness of 3500 Ansi lumens, a picture width of 601 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 401 cm). Even 1080P video signals are no problem for the projector. This model is no longer offered by InFocus.
