

# InFocus INL178

INFOCUS INL178

## Brief Introduction

Beta 2.5

The InFocus model INL178 is a DLP laser projector with HDTV 1920 x 1080 resolution and a contrast of 3500000:1. The manufacturer specifies a laser service life of 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The projector can illuminate a screen width of up to 643 cm thanks to its 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Playing 1080P is also no problem for the projector. The projector is very quiet compared to other projectors with an operating noise of 30 decibels.
