

# InFocus Quantum Apex Master

INFOCUS QUANTUM APEX MASTER

A brief introduction to the Quantum Apex Master: The InFocus standard portable 3D LED LCD projector offers 560 ANSI lumens and HDTV 1920 x 1080 resolution. The LEDs give the projector a light lifespan of up to 25,000 hours, which is the equivalent of 17.1 years at 4 hours a day. The built-in ambient light sensor detects the ambient light in the room and automatically optimises the image. It includes an integrated media player that can be used to play files directly. Since InFocus specifies the brightness of the projector in lumens, we have calculated an approximate Ansi-Lumen value in this case. A picture width of up to 240 cm is possible because the projector has 560 Ansi-Lumen. However, if room light is present, the picture should not be wider than 160 cm. Google TV turns the projector into a smart entertainment centre with countless functions. The model recognises Chromecast and screen mirroring signals, so it is possible to play high-resolution videos and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P compatible.

Features

- Full HD 1080P compatible
- Integrated Mediaplayer
- High Dynamic Range (HDR)
- Wi-Fi network compatible.
- Ambient Light Sensor.
- Google TV
- Animated Backgrounds and Screensaver
- 11 point white balance adjustment
- low Blue Light setting
- Digital Noise Reduction
- MPEG Noise Reduction
- Flesh Tone Adjustment
