With the Work Big IN12, manufacturer InFocus offers a standard portable DLP projector with XGA 1024 x 768 resolution and a contrast of 1800:1. The projector can illuminate an image width of up to 389 cm thanks to its 2000 Ansi lumens. In room lighting, however, the image width should ideally be less than 259 cm. The model built in 2007 is no longer offered by InFocus. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
