

Jmgo N1S Pro 4K

J M G O N 1 S P R O 4 K

The standard portable N1S Pro 3D laser DLP projector from Jmgo has 2400 Ansi lumens, a contrast of 1600:1 FOFO and an HDTV 1920 x 1080 resolution. The manufacturer specifies a laser service life of 30,000 hours, which would be over 20.5 years with a daily viewing time of 4 hours. A picture width of up to 498 cm is possible as the projector has 2400 Ansi lumens. However, if room light is available, the picture should be max. 332 cm wide. Thanks to Google TV, the projector can be conveniently controlled by voice command. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Furthermore, it is Full HD 1080P and 4K (compressed) as well as 3D compatible, meaning that all currently available Blu-ray formats can be recognized by the projector. The operating noise of just 26 decibels makes the projection quiet.
